VENUE : DURBAN – SOUTH AFRICA

TUITION : US \$ 1750 Per participant.

We are pleased to extend a warm invitation to you to attend our upcoming conference.

SYMPOSIUM CONTENT

AI is revolutionizing procurement strategy in several ways:

- Enhanced Decision-Making: AI provides data-driven insights, enabling procurement teams to make informed decisions about sourcing, supplier selection, and contract management.
- Increased Efficiency: AI automates routine tasks, streamlines workflows, and reduces manual errors, freeing up procurement professionals to focus on strategic activities.
- Predictive Analytics: AI forecasts demand, identifies potential disruptions, and optimizes inventory management, enabling proactive decision-making.
- Risk Management: AI detects potential risks, such as supplier insolvency or geopolitical issues, allowing procurement teams to mitigate them.
- Improved Supplier Collaboration: AI provides insights into supplier performance, enabling better relationships and negotiation strategies.
- Sustainability: AI helps monitor and improve sustainability practices throughout the supply chain.
- AI can transform public procurement by enhancing transparency, accountability, and efficiency.
